→	rub	pot	red		sad	set	tip	map
	wig				ten			
	man	fun	rob		rib			

Each player has two counters on eyes. Roll a 3 or 6 to place 1 counter on their start square. Roll again and read the word they land on. If incorrect they move back to their previous square. Move around the track and up the home column. Players can start their second counter at any time if they roll a 3 or 6 but only move to the starting square. A player must return his counter to the eye if opponent lands on the same square. *Crash!* Player must throw 3 or 6 to return this counter to their start square. Winner is the first with two counters home.
